

Electronic control for professional and industrial ovens

	FEGR043 - FEGR044	FE1029
		
Power supply	85-265 Vac - 50/60Hz	85-265 Vac - 50/60Hz
Controls	13 buttons keypad - cod.FEGR043 16 buttons keypad - cod.FEGR044	Touch screen display 7"
Visual signals	3 display with 7 red segments for temperature; 4 display with 7 red segments for clock and timer	Touch screen display 7"
Work phases signals	Leds e and leds bars	Touch screen display 7"
Acoustic signals	Piezoelectric buzzer	Piezoelectric buzzer
Control system with microcontroller	Yes	Yes
Operating parameters' setting menu	Yes	Yes
Inputs	Up to 3 analog inputs to handle type J thermocouples	Up to 3 analog inputs to handle type J thermocouples
Outputs	Up to 8 digital relay outputs (resistance for dome, bedplate, lights, chamber...)	Up to 8 digital relay outputs (resistance for dome, bedplate, lights, chamber...)
Functions	Pizza oven control cod.FEGR043 Pastry oven control cod.FEGR044	To be defined on request depending on the intended use of the oven
Clock settings	Yes - Backup battery	Yes - Backup battery
